- All Configurations Available for Liquid Application
- Available in 3/4" or 1" points

DESCRIPTION

Our single shoot openers were designed with the concept of zero till in mind. The distinctive vertical design improved moisture conservation, increased trash clearance, eliminated plugging and was fully protected by the first carbides in the opener industry. The 3/4" single shoot opener is our narrowest profile opener. The double carbides on the point gives extra protection against premature wear.

SPECIFICATIONS

Part#	<u>3/4"</u> ENAA00	<u>1"</u> ENAC00
Opener Type	Single Shoot	
Shank Type		
Shank Spacing		
Packer Widths	2"-4"
