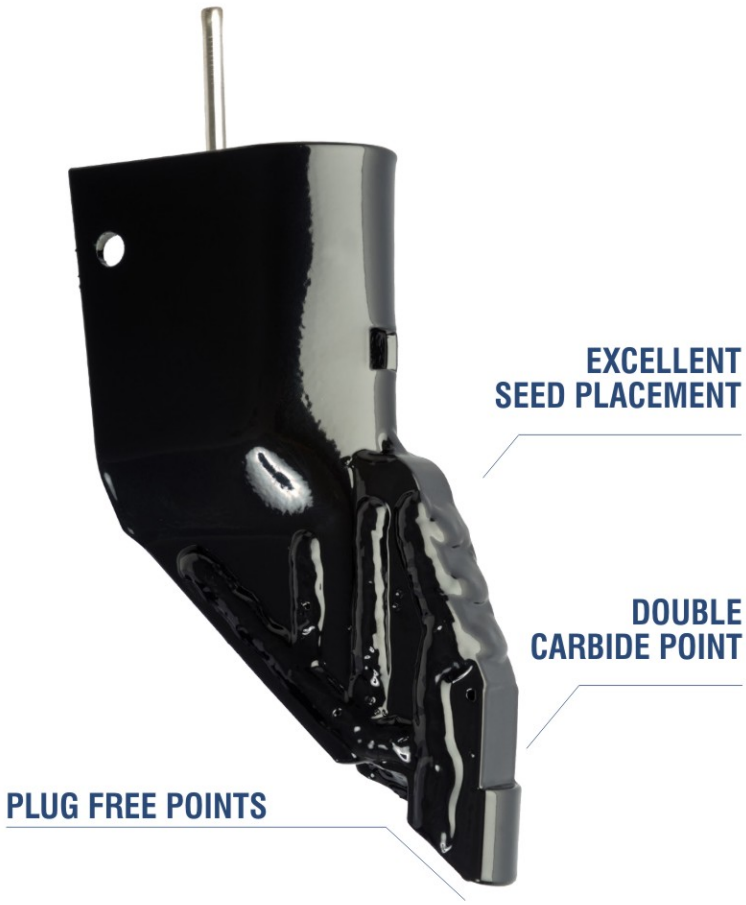
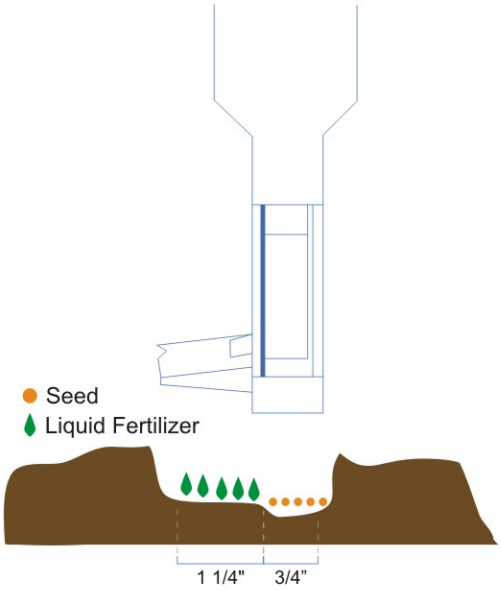
ATOM-JET INDUSTRIES





* Measurements may vary with soil conditions and ground speed.

## JOHN DEERE 9300/9400 SERIES LIQUID

- Double Carbide Point
- Excellent Seed Placement
- Plug Free Points
- Maintainable/Repairable
- All Configurations Available for Liquid Application
- Available in 3/4" or 1" points

### DESCRIPTION

Our double shoot liquid openers were designed with the concept of zero till in mind. The distinctive vertical design improved moisture conservation, increased trash clearance, eliminated plugging and was fully protected by the first carbides in the opener industry. The 3/4" single shoot opener is our narrowest profile opener. The double carbides on the point gives extra protection against premature wear.
